

WF41C

- Technical Data:**
- control voltage: 42 V AC
 - 4 rolls wire feeder unit for wire speed 1-24 m/min.
 - for wire: Ø 0,6-1,6 mm K300 (5-15 kg spool) wire feeder rolls D. 37 mm
 - for welding current: 20-550 A
- Equipment:**
- electronic control of wire feeder with
 - soft start control, burn back control, wire inching (cold feed); 2/4 stroke- torch triggering, gas test
 - potentiometer for exact adjustment of welding current and voltage
 - remote control for power source up to 100 m (option)
 - standard spare parts
 - special isolation
- Variants:**
- a) air cooling (artikel No. 11224)
 - b) water cooling (artikel No. 11225)
- Connections:**
- connectors:
- welding current: Binzel 50/70 qmm
 - Gas: 1/4"
 - control: Amphenol-(Metall)
- Dimension:** 550 x 230 x 400 mm
- Weight:** 18 kg

Connection possible to the MIG/MAG power source of the following manufacturers:
WOLTERS DORF; Kjellberg; Reichenbach; ESAB; Kempi; Cloos; Messer-Griesheim; usw.
